

The Sabbath

Is it really on the seventh day?

Some texts to consider:

- ✿ *Genesis 2:2, 3--How do we know that this day is 24 hours long and not a longer period of time, as some people believe?*
- ✿ *Exodus 20:8-11--Here we read that the seventh day is the Sabbath, and why is it the Sabbath?*
- ✿ *Exodus 16:22-26--What day is the Sabbath in the account?*
- ✿ *Jeremiah 17:21, 22--What day of the week is the Sabbath in these verses?*

Some people say the Sabbath is based on the phases of the moon.

The Bible talks about the new moon:

- ✿ *1 Samuel 20:5--the king acknowledged the new moon.*
- ✿ *Psalms 81:3--the new moon is a feast day.*
- ✿ *Isaiah 66:23--we will worship from one new moon to another in heaven.*

BUT--the day of the new moon is never to be worshipped on as the seventh day Sabbath. Sometimes the new moon will coincide with the seventh day Sabbath, but it is never to take the place of the seventh day Sabbath!
