

BEAUTIFUL THOUGHTS TO PONDER

It is the greatest joy of the angels of heaven to spread **the shield of their tender love** over souls who turn to God. (OHC 92.6)

If the curtain could be rolled back, and each one could discern the constant activities of the heavenly family to preserve the inhabitants of the earth from Satan's seductive wiles, lest in their careless attitude they should be led astray through satanic strategy, they would lose a large degree of their self-confidence and self-assurance. They would see that **the armies of heaven are in continual warfare with satanic agencies, to obtain victories in behalf of those** who do not sense their danger, and who are passing on in unconscious indifference (MS 32, 1900).
